

Truths that Strike Home

Your grocer is honest and—if he cares to do so—can tell you that he knows very little about the bulk coffee he sells you. How can he know, where it originally came from, how it was blended—or with what—or when roasted? If you buy your coffee loose by the pound, how can you expect purity and uniform quality?

LION COFFEE, the LEADER OF ALL PACKAGE COFFEES, is of necessity uniform in quality, strength and flavor. For OVER A QUARTER OF A CENTURY, LION COFFEE has been the standard coffee in millions of homes.

LION COFFEE is carefully packed at our factories, and until opened in your home, has no chance of being adulterated, or of coming in contact with dust, dirt, germs, or unclean hands.

In each package of LION COFFEE you get one full pound of Pure Coffee. Insist upon getting the genuine. (Lion head on every package.)

(Save the Lion-heads for valuable premiums.)

It was a little figure bent and old, and hanging from the gullows tree.

"Burn it!" he said, turning to the old servant and putting it in his hands. Luncheon had been set between us the while, and as we were eating it the butler opened a big couch and threw snowy sheets of linen over it and silk-covers that rustled as they fell.

"You will sleep there," said my host as his servant laid the pillows, "and well, I hope."

I thought I had better go to my own lodgings.

"Too late, too late," said he, and I, leg weary and half asleep, accepted his proffer of hospitality. Then, having eaten, he left me, and I got into bed after turning the lights out. Something woke me in the dark of the night. There was a rustling sound in the room. I raised my head a bit and listened. It was the black curtain that hung in the corner. I imagined something striking it violently. I saw a white figure standing near me in the darkness. It moved away as I looked at it. A cold wind was blowing upon my face. I lay a long time listening, and by and by I could hear the deep voice of Trumbull as if he were groaning and muttering in his sleep.

When it began to come light I saw the breeze from an open window was

one of the lesser journals. I spent the day going from one office to another, but was rejected everywhere with thanks. I came home and sat down to take account of stock. First, I counted my money, of which there was about \$50 left. As to my talents, there were none left. Like the pies at Hillsborough taven, if a man came late to dinner they were all out. I had some fine clothes, but no more use for them than a goose for a peacock's feathers.

I decided to take anything honorable as an occupation, even though it were not in one of the learned professions. I began to answer advertisements and apply at business offices for something to give me a living, but with no success. I began to feel the selfishness of men. God pity the warm and tender heart of youth when it begins to harden and grow chill, as mine did then; to put away its cheery confidence forever; to make a new estimate of itself and others. Look out for that time, O ye good people that have sons and daughters!

I must say for myself that I had a mighty courage and no small capital of cheerfulness. I went to try my luck with the newspapers of Philadelphia, and there one of them kept me in suspense a week to no purpose. When I came back, reduced in cash and courage, Hope had sailed.

There was a letter from Uncle Eb telling me when and by what steamer they were to leave. "She will reach there a Friday," he wrote, "and would like to see you that evening at Fuller's."

I had waited in Philadelphia, hoping I might have some word to give her a better thought of me, and that night after such a climax of ill luck—well, I had need of prayer for a wayward tongue. I sent home a good account of my prospects. I could not bring myself to report failure or send for more money. I would sooner have gone to work in a scullery.

Meanwhile my friends at the chalet were enough to keep me in good cheer. There was William McClintan, a Scotchman of a great gift of dignity and a nickname inseparably connected with his fame. He wrote leaders for a big weekly and was known as "Waxy." McClintan to honor a pale ear of wax that took the place of a member lost nobody could tell how. He drank deeply at times, but never to the loss of his dignity or self-possession. In his cups the natural dignity of the man grew and expanded. One could tell the extent of his indulgence by the degree of his dignity. Then his mood became at once didactic and devotional. Indeed, I learned in good time of the rumor that he had lost his ear in an argument about the Scriptures over at Edinburgh.

I remember he came an evening soon after my arrival at the chalet when dinner was late. His dignity was at the full. He sat awhile in grim silence, while a sense of injury grew in his bosom.

"Mrs. Oppen," said he in a grandiose manner and voice that nicely thrilled the r's, "in the fourth chapter and ninth verse of Lamentations you will find these words:— Here he raised his voice a bit and began to tap the palm of his left hand with the index finger of his right, continuing, "They that be slain with the sword are better than they that be slain with hunger, for these pine away, stricken through want of the fruits of the field." Upon my honor as a gentleman, Mrs. Oppen, I was never so hungry in all my life."

The other boarder was a rather frail man, with an easy cough and a confidential manner. He wrote the "Obituaries of Distinguished Persons" for one of the daily papers. Somebody had told him once his head resembled that of Washington. He had never forgotten it, as I have reason to remember. His mind lived ever among the dead. His tongue was pickled in maxims; his heart sunk in the brine of recollection; his humor not less unconscious and familiar than that of an epitaph. His name was Lemuel Franklin Force. To the public of his native city he had introduced Webster one Fourth of July—a perennial topic of his lighter moments.

DESIRE TO RESIGN

French Foreign Minister Finds Complications Coming Too Fast.

HE MAY STICK TO POST

Announcement of M. Delcasse's Intention to Resign Was the Occasion of Hasty Council Meeting.

He May Be Persuaded to Hold on to Position Rendered Objectionable by Criticism.

Paris, April 22.—After a notable service of nearly eight years in the direction of foreign affairs Theophile Delcasse has informed President of the Council Rouvire of his desire and intention to resign. This announcement came as a surprise and shock to M. Delcasse's colleagues of the cabinet who immediately took steps to endeavor to secure a reconsideration of his determination.

A cabinet council was held and it was the unanimous determination of the council that the interest of the country at this particular time requires that M. Delcasse retain the portfolio of foreign affairs. The president of the council voicing the wishes of the president and Mr. Loubet and the ministers, earnestly besought M. Delcasse to retain his place in the cabinet.

It is evident that M. Rouvire's earnest appeal caused M. Delcasse to waver in his determination and it is believed that he will yield to the insistence of President Loubet and the president of the council.

The motives leading up to M. Delcasse's sudden determination to retire from the cabinet are primarily attributed to internal controversies over the Moroccan question; and this to some extent has been accentuated by similar controversies over French neutrality in the far-east. The opposition has been quick to seize upon both questions and headed by Socialists and Nationalists, have directed their criticism against M. Delcasse. The Socialist criticisms have been particularly vehement during recent days on the Moroccan question and this appears to have finally decided M. Delcasse to surrender the question into other hands. It is felt that his retirement now would be hailed in Germany as a German triumph and this is one of the main considerations leading M. Rouvire to earnestly appeal to M. Delcasse to remain in the foreign office.

The announcement concerning M. Delcasse's intention to resign is but one of many incidents in a time of much anxiety throughout government quarters. Following close upon the heels of the complications with Germany over Morocco the Franco-Japanese incidents have suddenly assumed serious proportions and unusual energy was shown in preventing its embroiling France in complications in the far east. In order to secure definite co-operation between these departments of the government, namely naval, colonial and foreign, a conference was held between leading representatives of each department. This brought about a clear understanding regarding the measures necessary for the maintenance of neutrality of Indo-Chinese waters and orders were sent to Governor General Beau to specifically report the exact location of the Russian Pacific squadron and whether it had or had not been withdrawn from French waters. Communications with St. Petersburg led to orders being transmitted by the Russian government to Vice Admiral Rostevsky to vigorously respect the neutrality of French waters. It was even stated that Foreign Minister Lamsdorff would carry the question before Emperor Nicholas in order to assure complete respect of neutrality.

Probably the most significant development from the energetic measures adopted was the receipt of a dispatch from Saigon saying that imperative orders had been given for the disarmament of the Russian cruiser Diana which sought refuge in the harbor of Saigon eight months ago for the purpose of repairing. The main portion of the Diana's machinery must now be handed over to the French naval authorities at Saigon. It is stated at the foreign office that no representations of any kind have been presented by Great Britain concerning neutrality. At the same time it is anticipated that some such representations will be made. The fact that the British ambassador has given up his Easter holidays and returned to Paris last night after a conference with Foreign Secretary Lansdowne appears to support this view. However, the cordial relations existing between France and Great Britain would doubtless modify any representations so as to relieve them from serious significance. Anything like an energetic protest from Great Britain at this time would be deeply wounding to France who relies on the Anglo-French entente as a counterpoise to Germany's menaces over Morocco.

Investigating Sausage Business. Chicago, April 22.—The federal grand jury which is investigating the affairs of the meat packers has resumed their probe into the details of the sausage casing business as carried on by the packers.

JOURNALISTS ADJOURN

Little Accomplished at Notable Meeting in St. Petersburg.

St. Petersburg, April 22.—Reports are current here that the Russian second Pacific squadron has already left Kamranh bay and is on the way to Vladivostok.

St. Petersburg, April 22.—May Day demonstrations on a grand scale throughout the empire is the program of the Socialist wing of the reform party as announced at the Pan-Russian congress of journalists, which closed yesterday afternoon after a protracted and stormy session. The congress illustrated the lack of unity in reform circles, the program as finally adopted failing to touch many burning questions of the hour on account of the impossibility of harmonizing the views of divergent elements. At the conclusion neither side was satisfied with the program. The moderate faction, which was in the majority, eliminated a number of recommendations in deference to the wishes of the Social Democrats, while the representatives of the Socialist press characterized the platform generally, and especially the plank regulating tactics, as wishy-washy, and announced that the plan of organized meetings and parades in every city and industrial center of Russia on May 14 to which they were unable to gain the concurrence of other elements, will be carried out regardless of the congress. They disclaimed any intention of rioting, but declared if the police attempted to break up the demonstrations, the government would be answerable.

The chief accomplishment of the congress was its determination to organize an association which will participate in the general work of reform league of all the professional classes, in which the lawyers took the first step at their recent congress here. Practically all the liberal papers in Russia were represented in the journalist congress. The police did not interfere.

Hitchcock Makes a Cleaning.

Washington, April 22.—Fred H. Wilson, acting superintendent, and seven clerks of the Indian warehouse in New York city were summarily dismissed from office by Secretary Hitchcock as the result of revelations made by an inspection of the office by Indian Inspector Nesler, who preferred charges of irregularities in the conduct of the office, including Wilson's accounts, in order to protect a number of employees who were not performing any service for the government.

The Flood of Immigration.

New York, April 22.—Four trans-Atlantic steamers which arrived at this port yesterday brought 9,675 steerage passengers—the largest number ever passed in quarantine in one day. It was impossible to handle the great throng in one day, and at least 4,000 would-be citizens had to remain over night aboard the ship on which they arrived, as 6,000 is the limit of Ellis Island's clearing capacity.

Asks for New Trial.

Hoosac Falls, N. Y., April 22.—Council for Mrs. Mary Rogers, now under sentence of death in Windsor prison, Vermont, for the murder of her husband, Marcus Rogers, and who was granted a reprieve until June 2, today filed in the Vermont supreme court at Brattleboro a petition for a new trial.

Serious Fire in Brooklyn.

New York, April 22.—Three firemen were injured, six women were severely burned, seventy families were made homeless, and property valued at \$150,000 was destroyed by a fire in the heart of the thickly settled Hebrew center in the Brownsville section of Brooklyn.

New Scene of Operations.

Topeka, Kan., April 22.—Jas. R. Garfield, commissioner of corporations, started for California last night.

ORVILLE H. PLATT

Connecticut's Veteran Senator Passes Away at Age of 78.

END CAME SUDDENLY

Aged Statesman's Sirens Struggle Against Ravages of Pneumonia Proved Unavailing.

One of President's Closest Advisers and Will Be Missed in the Councils of State.

Washington, Conn., April 22.—Senator Orville Hitchcock Platt of Connecticut died at his summer home in this, his native town, at 8:53 last night, from pneumonia. The end came almost unexpectedly, the immediate cause being the breaking of the abscess which had formed in the right lung and which produced strangulation. Only a few minutes before the senator was perfectly conscious, appeared to have no pain, and had answered questions put to him by those at the bedside, showing that his mind was clear.

Senator Platt was born here July 19, 1827, and was nearly seventy-eight years of age. Proud of his strength and activity, it had been his ambition, so his friends say, of becoming the "father of the senate" in point of years.

THE PRESIDENT'S FRIEND

Senator Platt Stood High in Executive Councils.

Washington, April 22.—That the death of Senator Platt is a distinct loss to the senate and to the country at large is the unanimously expressed opinion of public men. By President Roosevelt it will be especially felt, as the senator was a frequent visitor at the White House and was at all times consulted by the president when important matters of state in and out of congress were under discussion. The senator's calls at the White House, usually by appointment, nearly always occurred in the evening, when there was an uninterrupted opportunity for extended conferences with the president. The senator's opinions and advice were not less highly regarded by his fellow senators, who placed a high estimate on his abilities and sagacity. During his long service of twenty-six years the senator has taken an active part in the proceedings of the upper branch of congress, has filled many important committee assignments and demonstrated his capacity in handling and discussing questions of national interest. He was chairman of the judiciary committee and in addition a member of the committee on Cuban relations, finance and revolutionary claims. He took a leading part in arranging our relations to Cuba. Senator Platt frequently was called to the chair to preside temporarily over the sessions of the senate, and during the Swayne impeachment trial at the last session sat throughout the trial as the presiding officer or judge of the court.

THE STATE OF TRADE

Industries Active, but Weather Has Had Retarding Influence.

New York, April 22.—Bradstreet's weekly review of trade today says: Trade reports are irregular in character, distribution of seasonable goods at retail being retarded by cooler and rainy weather at the West, Northwest and South, where track, fruit, products and young cotton are reported damaged by frosts. Industries, however, are active, jobbing trade at some centers is still good and retail business toward the latter end of the week became more animated. Building is brisk, money is firmer, bank clearances have increased heavily, prices in general display a downward tendency, weakness in grain and securities being special features. Railway earnings are still on the upgrade and Western wheat prospects continue favorable.

Ran Shooting Through Streets.

Warsaw, April 22.—A drunken soldier last evening fired his revolver in the crowded streets of this city, killing one and wounding six persons, one of them probably fatally. A patrol had attempted to arrest the man, but failed, and as he fled he fired in all directions. Among the wounded are two soldiers, a policeman and two Jews, a father and son. A workman finally captured the miscreant.

Demand Will Be Refused.

Chicago, April 22.—The teamsters' unions have informed all business houses which have been delivering goods to Montgomery Ward & Co., that they must stop or a general strike of all the union teamsters in Chicago will be called. It is expected that the demands of the unions will be without exception refused by the employers.

TERSE TELEGRAMS

United States Senator O. H. Platt is dead at his home in Washington, Conn.

The national irrigation congress will meet in Portland from August 21 to 24.

In the burning of the St. Anne convent at St. Genevieve, near Montreal, fourteen lives were lost.

The Secret of Long Life and How to Overcome Waste.

To "know thyself" is to take advantage of life's secrets and equip oneself with an armor which will successfully resist the attack of disease in the battle of life.

The old idea of fate or "kismet," and that a person always dies when his time comes, is now exploded. Every mechanism, whether made by God or man, has a definite amount of wear and its life can be lengthened or shortened according to the care that is given it. If accident or carelessness destroys the works of the watch or the machine, it is an inhumanity of nature's method of restoring waste of tissue and impoverishment of the blood and nervous force is used when you take an alternative extract of herbs and roots, without the use of alcohol, like Dr. Pierce's Golden Medical Discovery. This vegetable medicine coaxes the digestive functions and helps in the assimilation of food, or rather enables the organs to take from the food just the nutriment the blood requires.

Prof. J. E. Tanguay, of 61 St. Peter Street, Quebec, writes: "I had been ill for some time with La Grippe and did not regain my strength. With a week after using Dr. Pierce's Golden Medical Discovery, I was able to be around again, and I found that my system was entirely free from any of the bad effects of La Grippe. I now keep a bottle of the 'Golden Medical Discovery' on hand, and when I catch cold, take a few doses, which keeps me in perfect health. As a builder up of lost strength and vitality, I do not believe your 'Discovery' has an equal."

Accept no substitute for "Golden Medical Discovery." There is nothing "just as good" for diseases of the stomach.

SENATOR Orville H. Platt, of Connecticut, is dead. He was one of the ablest and most useful men in the senate where he has served since 1879.

THAT was a bold attempt to hold up and rob an aged citizen of Leesville, an account of which is given in another column. There is some man in that vicinity who should be sent over the road for a few years. This is probably the same man that held up a merchant a few months ago.

IN THE matter of public improvements it occurs to many that nothing would be of more benefit to the public than the improvement and beautifying of our city park. It would cost but a trifle and the benefits derived would certainly outweigh the cost. The park should be a place where during the summer months the people could go of an afternoon or an evening, taking their children for an outing. Some seats, swings, a speaker's stand and other conveniences should be provided. It should be made a place for public meetings and if desirable the churches might hold religious services there on Sunday evenings during the hot summer months. It should be kept in good order at all times and all this could be done at a small cost in comparison to the benefits that would accrue. A beautiful, well kept park is advantageous to the people of any city. Ours can be made both attractive and useful.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube be restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free. F. J. CHENEY & CO., Toledo, O. Sold by druggists, 75c. Take Hall's Family Pills for constipation.

DANIEL W. JOHNSON.

He Was Four Times Mayor of the City of Seymour.

Daniel W. Johnson, a forty-three years resident of Seymour, is one of the staunch friends of our city and one of her most liberal minded and enterprising citizens. From young manhood to the present time he has been firm in his devotion to the welfare of this community and while his life has not been one of particularly varied action, it has been one of solid usefulness and one stretch of tireless work for the good of his home city.

Though the greater part of his life has been spent here, still it is not the place of his birth, for he was born near Vernon, in Jennings county on

DANIEL W. JOHNSON.

September 28, 1840. His father, C. R. Johnson, was a well-to-do farmer. The first fifteen years of his life were spent near the place of his birth during which time he was accumulating a good common school education. After this he left home and went to Richmond, where he learned the carriage business. He worked there until the spring of 1861 when he went into the army. He enlisted at Connersville, in the 16th Indiana Regiment of Volunteers. He was with the army until the fall of 1862, when the term of his enlistment expired. Leaving the army he came to Seymour and engaged in the manufacture of wagons and carriages in partnership with his brother, William. He was engaged in that business for twenty-eight years and during that time the business increased to extensive proportions. After that he was made Superintendent of The Seymour Water Company and has held this position for the last twelve years. He has at all times been faithful to this trust and has performed his work with care and diligence. He is still engaged in the business and puts forth every effort to make the Water Company a most beneficial corporation to our modern city.

Mr. Johnson has also served twenty-two years as city officer and discharged his duties without an opening for criticism. He was elected a member of the city council seven times and was mayor four different times, three of his elections being successive. This attests the high esteem in which he was held by his friends and never were they given an opportunity to let their estimation of him drop a notch but always he was raised in public opinion.

Perhaps the year and a half which he spent at war was as interesting as any period of his life. General Banks was at the head of the army of the Potomac and Mr. Johnson fought under Colonel P. A. Hackett, of Rushville, Indiana, who was the only Indiana officer of high rank killed during the war. Mr. Johnson was in the battles of Winchester and Ball's Bluff, but since he experienced nothing in the line of hair breadth escapes, it is not ours to relate such.

Mr. Johnson was married at Richmond, Indiana, in June 1861, to Rebecca McMinn. To them three sons were born, namely—H. C. Johnson, cashier of Seymour National Bank, Edwin V., who is at the present time manager of The Northern California Power and Light Company at Redding, California, after twenty years service in the U. S. navy, and Albert S., who is now employed in a railroad office at St. Louis. Mrs. Johnson died in November, 1901, after living an exemplary life. After her death, Mr. Johnson went to California, expecting to make that place his home, but the attraction to Seymour was more than he could resist and he was drawn back to his native state and has since been entirely satisfied with it and is apparently content to remain.

He is a member of the Grand Army of the Republic, of the Odd Fellows and Masons. He has been a member of the Masons for forty years and has been one of their most prominent workers, having been Master several times and served in that position last year. He is a member of the Christian church of this city and has been since a young man.

Next at Scottsburg.

The Woman's Home Missionary Society, which held a most successful meeting at Columbus, will meet a year hence at Scottsburg. In each district a press representative was appointed and Mrs. N. G. Smith was named as the press representative for Seymour.

High School Debate.

The debate at the Seymour High School yesterday afternoon was the most closely contested of this term. This is the second year of the organization of the debating club and it has proven quite a benefit to the school. Under the lead of Miss Anna Hancock the debates have grown to be one of the most interesting features of the work.

The subject for discussion yesterday was, Resolved—"That the white people have treated the negro better than the Indian." The affirmative side of the question was taken by Walter Horst and Miss Bertha Hoffman, who presented the result of their study with force and a thorough knowledge of the subject. The negative side was presented by Miss Edna Swope and Charles Phelan, who displayed their customary ease and fluency in debating before a High School audience. Both sides seemed to clinch so many good points that the decision of the judges was awaited with no little anxiety. The decision was one point in favor of the affirmative, the judges being Miss Frieda Meyer, Lynn Bollinger and Frank Montgomery.

Mrs. Dr. H. R. Kite, M. S. C. F. Bauer, Mrs. Harley Jackson, Miss Helen Moore, Miss Katy May Cordes Miss Milla H. Weaver, Tipton S. Ross and Miss Fay Johnson were visitors at the school. While the judges retired for decision, music was rendered by the High School Chorus. This was the last and one of the most pleasant and profitable program afternoons of this term.

For a Weak Digestion.

No medicine can replace food, but Chamberlain's Stomach and Liver Tablets will help you to digest your food. It is not the quantity of food taken that gives strength and vigor to the system, but the amount digested and assimilated. If troubled with a weak digestion, don't fail to give these Tablets a trial. Thousands have been benefited by their use. They only cost a quarter. For sale by C. W. Millhouse.

SHOOTING AFFRAY.

Night Watchman At Blish Mill Put Two Strangers To Flight.

About one o'clock Friday night A. C. Kennard the night watchman at Blish's Mill, was called upon to resist the entrance to the mill of two none too prepossessing strangers. He had just made the round of the outside of the building and was going through the inside, when he heard a knock at the side entrance. When he went to the door he saw two strange men and upon his asking what they wanted they told him that they wanted to get in. He answered that they did not do business there at night, but he started to open the door when one of the two jumped behind the scale box. This aroused Mr. Kennard's suspicions and he informed them that he would not admit them. This seemed to incite their anger, for they tried to kick the door in, but Mr. Kennard soon put a stop to this by firing a bullet from his revolver through the glass door. At this the two ran and that was the last seen of them.

What their intentions were or their identity are the dubious items of the affray and it is more than probable that such they will remain. It is presumed that they were a couple of tramps who came in on one of the night trains and seeing the light at that place, and came to see what opportunity there was for theft and who were not equal to the occasion of meeting a night watchman at the point of the revolver.

Whitson's New Book.

A new story by John H. Whitson, whose literary achievements please his many friends here at his old home, is just out. The story is entitled "Justin Wingate, Ranchman." It is another strong Western story, with spirited and graphic picturing of local conditions, the agricultural development of a Western ranch section, and the struggle between the ranchmen and the farmers. The story has three remarkably striking scenes of danger—a high-grass fire, a stampede of excited cattle, and a terrific storm and cloud-burst. There is abundant love interest; also a strong political element, dealing with Colorado politics and the fight between cattlemen and irrigationists to control the legislature, in which the hero becomes the storm centre. The attempt of a beautiful but unscrupulous woman, who is a wrecker of hearts and of men, to influence his vote for United States senator plays an important part.

Miss Smith Talks.

The Ladies Aid Society of the M. E. church met at 2 o'clock yesterday afternoon with Mrs. J. A. Sargent at the parsonage. Miss Bessie Smith, Deaconess of Christ's Hospital, who is spending a short time here for rest and recuperation, gave a most interesting and instructive talk of the work of the deaconesses at that hospital and throughout Cincinnati. Miss Smith formerly lived at Seymour and her many friends were delighted with and greatly benefited by her words. Mrs. Sargent served an excellent luncheon and the after-noon was one of great help to all.

DAN GROSVENOR SAYS:

"Pe-ru-na is an Excellent Spring Catarrh Remedy—I am as Well as Ever."

HON. DAN. A. GROSVENOR, OF THE FAMOUS OHIO FAMILY.

Hon. Dan. A. Grosvenor, Deputy Auditor for the War Department, in a letter written from Washington, D. C., says:

"Allow me to express my gratitude to you for the benefit derived from one bottle of Peruna. One week has brought wonderful changes and I am now as well as ever. Besides being one of the very best spring tonics it is an excellent catarrh remedy."—DAN. A. GROSVENOR.

In a recent letter he says:

"I consider Peruna really more meritorious than I did when I wrote you last. I receive numerous letters from acquaintances all over the country asking me if my certificate is genuine. I invariably answer, yes."—Dan. A. Grosvenor.

A County Commissioner's Letter.

Hon. John Williams, County Commissioner, of 517 West Second street, Duluth, Minn., says the following in regard to Peruna:

"As a remedy for catarrh I can cheerfully recommend Peruna. I know what it is to suffer from that terrible disease and I feel that it is my duty to speak a good word for the tonic that brought me immediate relief. Peruna cured me of a bad case of catarrh and I know it will cure any other sufferer from that disease."—John Williams.

A Congressman's Letter.

Hon. H. W. Ogden, Congressman from Louisiana, in a letter written at Washington, D. C., says the following of Peruna, the national catarrh remedy:

"I can conscientiously recommend your Peruna as a fine tonic and all around good medicine to those who are in need of a catarrh remedy. It has been commended to me by people who have used it, as a remedy particularly effective in the cure of catarrh. For those who need a good catarrh medicine I know of nothing better."

W. E. Griffith, Cocean, Texas, writes: "I suffered with chronic catarrh for many years. I took Peruna and it completely cured me. I think Peruna is the best medicine in the world for catarrh. My general health is much improved by its use, as I am much stronger than I have been for years."—W. E. Griffith.

A Congressman's Letter.

Congressman H. Bowen, Raskin, Tazewell county, Va., writes:

"I can cheerfully recommend your valuable remedy, Peruna, to any one who is suffering with catarrh, and who is in need of a permanent and effective cure."—H. Bowen.

Mr. Fred. D. Scott, Larue, Ohio, Right Guard of Hiram Foot Ball Team, writes: "As a specific for lung trouble I place Peruna at the head. I have used it myself for colds and catarrh of the bowels and it is a splendid remedy. It restores vitality, increases bodily strength and makes a sick person well in a short time. I give Peruna my hearty indorsement." Fred. D. Scott.

Gen. Ira C. Abbott, 906 M street, N. W., Washington, D. C., writes:

"I am fully convinced that your remedy is an excellent tonic. Many of my friends have used it with the most beneficial results for coughs, colds and catarrhal trouble."—Ira C. Abbott.

Mrs. Elmer Fleming, orator of Reservoir Council No. 168, Northwestern Legion of Honor, of Minneapolis, Minn., writes from 2335 Polk street, N.E.:

"I have been troubled all my life with catarrh in my head. I took Peruna for about three months, and now think I am permanently cured. I believe that catarrh in all its forms, Peruna is the medicine of the age. It cures when all other remedies fail. I can heartily recommend Peruna as a catarrh remedy."—Mrs. Elmer Fleming.

Treat Catarrh in Spring.

The spring is the time to treat catarrh. Cold, wet winter weather often retards a cure of catarrh. If a course of Peruna is taken during the early spring months the cure will be prompt and permanent. There can be no failures if Peruna is taken intelligently during the favorable weather of spring.

As a systemic catarrh remedy Peruna eradicates catarrh from the system wherever it may be located. It cures catarrh of the stomach or bowels with the same certainty as catarrh of the head.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, O.
